

CONTENTS**Volume 34 Number 1****January 2004**

Comparison of JavaServer Pages and XSLT: a software engineering perspective J. Dunkel, R. Bruns and A. Holitschke	1
CONSIT: a fully automated conditioned program slicer C. Fox, S. Danicic, M. Harman and R. M. Hierons	15
An extensible probe architecture for network protocol performance measurement D. Watson, G. R. Malan and F. Jahanian	47
Representing variability in a family of MRI scanners M. Jaring, R. L. Krikhaar and J. Bosch	69

Volume 34 Number 2**February 2004**

Editorial B. Krishnamurthy	101
Clarifying the fundamentals of HTTP J. C. Mogul	103
The WebDAV property design E. J. Whitehead Jr and Y. Y. Goland	135
Understanding Web server configuration issues M. Arlitt and C. Williamson	163
High-performance benchmarking with Web Polygraph A. Rousskov and D. Wessels	187
A large-scale study of the evolution of Web pages D. Fetterly, M. Manasse, M. Najork and J. L. Wiener	213

Volume 34 Number 3**March 2004**

Reducing memory requirements in reachability-based finite automata operations B. Watson	239
Fast, accurate call graph profiling J. M. Spivey	249
lcc.NET: targeting the .NET Common Intermediate Language from Standard C D. R. Hanson	265

The design and implementation of a modular and extensible Java Virtual Machine P. Doyle, C. Cavanna and T. S. Abdelrahman	287
A ReScUE XML/EDI model E. J.-L. Lu and C.-C. Wu	315

Volume 34 Number 4**10 April 2004**

A testbed for performance evaluation of load-balancing strategies for Web server systems D. Sanghi, P. Jalote, P. Agarwal, N. Jain and S. Bose	339
Experiences implementing efficient Java thread serialization, mobility and persistence S. Bouchenak, D. Hagimont, S. Krakowiak, N. De Palma and F. Boyer.....	355
Evaluation and optimization of method calls in Java F. Bellotti, R. Berta and A. De Gloria.....	395

Volume 34 Number 5**25 April 2004**

An interactive method for extracting grammar from programs R. Jain, S. K. Aggarwal, P. Jalote and S. Biswas	433
Using roles in Java M. Schrefl and T. Thalhammer	449
Microbenchmarks for determining branch predictor organization M. Milenkovic, A. Milenkovic and J. Kulick	465
Agents in object-oriented software engineering A. F. Garcia, C. J. P. de Lucena and D. D. Cowan	489

Volume 34 Number 6**May 2004**

JaRec: a portable record/replay environment for multi-threaded Java applications A. Georges, M. Christiaens, M. Ronsse and K. De Bosschere	523
A Web-based distributed system for hurricane occurrence projection S.-C. Chen, S. Gulati, S. Hamid, X. Huang, L. Luo, N. Morisseau-Leroy, M. D. Powell, C. Zhan and C. Zhang	549

Libra: a computational economy-based job scheduling system for clusters J. Sherwani, N. Ali, N. Lotia, Z. Hayat and R. Buyya	573
Common subgraph isomorphism detection by backtracking search E. B. Krissinel and K. Henrick	591

Volume 34 Number 7**June 2004**

GLU ^h embedded in C++: a marriage between multidimensional and object-oriented programming N. S. Papaspyrou and I. T. Kassios	609
A framework for adaptive execution in grids E. Huedo, R. S. Montero and I. M. Llorente	631
A taxonomy of computer-based simulations and its mapping to parallel and distributed systems simulation tools A. Sulistio, C. S. Yeo and R. Buyya	653
Assigning people to roles in software projects S. T. Acuña and N. Juristo	675
SPARE Parts: a C++ toolkit for string pattern recognition B. W. Watson and L. Cleophas	697

Volume 34 Number 8**10 July 2004**

UbiCrawler: a scalable fully distributed Web crawler P. Boldi, B. Codenotti, M. Santini and S. Vigna	711
Tracing system-level communication in distributed systems Z. A. Mann and K. Kondorosi	727
A software monitor for shared-memory multiprocessor computers X. Liu and F. Xu	757
Building a new sort function for a C library J.-C. Chen	777

Volume 34 Number 9**25 July 2004**

A little language for modularizing numerical PDE solvers M. H. Hohn	797
P#: a concurrent Prolog for the .NET framework J. J. Cook	815

Code optimizations for a VLIW-style network processing unit J. Kim, Y. Paek and G. Uh	847
Optimizing precision overhead for x86 processors T. Ogasawara, H. Komatsu and T. Nakatani	875
Building KidPad: an application for children's collaborative storytelling J. P. Hourcade, B. B. Bederson and A. Druin	895

Volume 34 Number 10**August 2004**

Generation of test sequences from formal specifications: GSM 11-11 standard case study E. Bernard, B. Legeard, X. Luck and F. Peureux	915
Engineering information integration using object-oriented mediator technology M. Nyström and T. Risch	949
The implementation of generic smart pointers for advanced defensive programming A. Savidis	977
SEFT: a search engine for text O. de Kretser and A. Moffat	1011

Volume 34 Number 11**September 2004**

JCrasher: an automatic robustness tester for Java C. Csallner and Y. Smaragdakis	1025
Mapping of bibliographical standards into XML M. Jakšić	1051
Partial redundancy elimination for access expressions by speculative code motion M. Kawahito, H. Komatsu and T. Nakatani	1065
A specification language and service-oriented architecture to support distributed data management M. B. Blake	1091

Volume 34 Number 12**October 2004**

JAC: an aspect-based distributed dynamic framework R. Pawlak, L. Seinturier, L. Duchien, G. Florin, F. Legond-Aubry and L. Martelli	1119
Flexible XML-based configuration of physical simulations R. M. Sunderland, R. I. Damper and R. M. Crowder	1149

Object-oriented processing of Java source code H. Eichelberger and J. Wolff von Gudenberg	1157
Performance evaluation for VBR Continuous Media File Server admission control D. J. Makaroff, G. W. Neufeld and N. C. Hutchinson	1187

Volume 34 Number 13**10 November 2004**

A research C# compiler D. R. Hanson and T. A. Proebsting	1211
Checking secure information flow in Java bytecode by code transformation and standard bytecode verification C. Bernardeschi, N. De Francesco, G. Lettieri and L. Martini	1225
Dynamic reconfiguration of CPU and WebSphere on IBM pSeries servers J. Jann, N. Dubey, R. S. Burugula and P. Pattnaik	1257
Experience with the architectural design of a modest product family R. W. Schwanke and R. R. Lutz	1273
Leveraging legacy codes to distributed problem-solving environments: a Web services approach M. Li and M. Qi	1297

Volume 34 Number 14**25 November 2004**

Packaging software process improvement issues: a method and a case study T. Gorschek and C. Wohlin	1311
Source model analysis using the JJTraveler visitor combinator framework A. van Deursen and J. Visser	1345
Enforcing direct communications between clients and Web servers to improve proxy performance and security S. Chen and X. Zhang	1381
A simple and fast DNA compressor G. Manzini and M. Rastero	1397

Volume 34 Number 15**December 2004**

Anticipation-based partial redundancy elimination for static assignment form T. VanDrunen and A. L. Hosking	1413
Implementation of a TMO-structured real-time airplane-landing simulator on a distributed computing environment M.-G. Lee, S. Lee and K. H. Kim	1441

Efficient Java exception handling in just-in-time compilation S. Lee, B.-S. Yang and S.-M. Moon	1463
Constraint Lingo: towards high-level constraint programming R. Finkel, V. W. Marek and M. Truszczyński	1481
Author Index	1505
Key Word Index	1507
